Distinctively intelligent and social, this inspiration from the animal kingdom, the elephant lamp, serves as your companion and as a source of physical and mental comfort.

Made of polypropylene, the elephant lamp sculpture magically turns into a 3 dimensional sculpture with a flap from a one piece without any use of tools or hardware. This uniquely designed masterpiece is heat resistant, durable and washable. The elephant lamp translucent polypropylene offers a pleasant soft light and protects the eyes from a glare and could easily turn into a new color by the change of a colored light bulb.
